

1. Required frameworks:
 - MobileCoreServices.framework
 - SystemConfiguration.framework
2. Add '-ObjC' flag to project settings. Select Project -> Build Settings -> add -ObjC to 'Other Linker Flags' <http://i.imgur.com/VNJHMMWi.png>
3. In AppDelegate.m write #import "GestureProcessor.h"
4. In application:didFinishLaunchingWithOptions: AppDelegate method write `[GestureProcessor initWithAppKey:@"your_app_key"];`
